I Requirements

- ✗ PHP >= 7.1
- ✗ Magento >= 2.3

II Installation

Module

```
composer require unexpected/webp
php bin/magento module:enable Unexpected_Webp
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy -f
```

III Usage

1) Config

Stores → Configuration → Unexpected → Delivery Time

General

Enabled  Yes

General → Enabled - module activation

Backend

Date unit <small>[store view]</small>	Hour 
Slider min scale <small>[store view]</small>	1
Slider max scale <small>[store view]</small>	100
Slider step scale <small>[store view]</small>	1

Backend → Date unit – choose unit which display on slider and delivery time in frontend

Backend → Slider min scale – minimum slider value

Backend → Slider max scale – maximum slider value

Backend → Slider step scale – slider step

Frontend

The screenshot shows a configuration panel for a 'Delivery time' field. It includes a 'Label' section with a text input containing 'Delivery time'. Below this are 'Sorting' and 'Filters' sections, each with a green toggle switch and the text 'Yes'. The 'Visible on' section, labeled '[store view]', contains a list of checkboxes for different views: 'Product', 'Order mail', 'Order view admin', 'Order view customer', and 'Order create admin'. All checkboxes are currently unchecked.

Frontend → Label – set text, which display on frontend

Frontend → Sorting – enable if You want to add sort by option on category page

Frontend → Filters – enable if You want to add filter by delivery time option on category page

Frontend → Visible on – select which pages should display delivery time

2) Product edit page

Catalog → Products

Simple product

Delivery Time 

The screenshot shows the 'Delivery Time' configuration interface. It has a 'Type' section with four radio button options: 'To', 'From - to', 'From' (which is selected), and 'None'. Below this is a 'Range' section with a text input containing 'From 10 days' and a horizontal slider control.

In **Delivery Time** tab select one from 4 types and set up value on slider.

Configurable product

Delivery Time 

Apply to simple products [global] ☐ No

Type ☐ To
☐ From - to
☒ From
☐ None

Apply from simple product [global] ☐ No

Range From 10 days

There are two additional options:

Apply to simple products – all child products inherit value from configurable (works until at least one child don't have set delivery time)

Apply from simple product – choose value from child products on select list (works since all children have set delivery time)

IV Dev notes

1) Theme

Due to override templates from default Magento Theme Luma, this extension may not working properly with external themes.

2) Log files

Errors are logged in *var/log/unexpected/delivery_time.log* file.
